The participation of an ineligible natural or legal person will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

6. Number of applications or tenders

No more than one application or tender can be submitted by a natural or legal person whatever the form of participation (as an individual legal entity or as leader or partner of a consortium submitting an application/tender). In case of lots, the candidates or tenderers may submit only one application or tender per lot. Contracts will be awarded lot by lot and each lot will form a separate contract.

7. Shortlist alliances prohibited

Any tenders received from tenderers having a different composition than the ones mentioned in the short-listed application forms will be excluded from this restricted tender procedure, unless prior approval from the contracting authority has been obtained – see practical guide 2.6.3. Short-listed candidates may not form alliances or subcontract to each other for the contract in question.

8. Grounds for exclusion

Candidates or tenderers must submit a signed declaration, included in the application form or tender form, to the effect that they are not in any of the situations listed in Section 2.6.10.1. of the **practical guide (PRAG)**.

If the number of eligible candidates meeting the selection criteria is more than the maximum allowed, the contracting authority will rank them using the re-examination criteria stated below.

SELECTION AND AWARD CRITERIA

14. Selection criteria

The following selection criteria will be applied to candidates. In the case of applications submitted by a consortium, these selection criteria will be applied to the consortium as a whole if not specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

The selection criteria for each candidate are as follows:

1) Economic and financial capacity (based on item 3 of the service application form,. In case of candidate being a public body, equivalent information should be provided. The reference period which will be taken into account will be the **last three years** for which accounts have been closed.

a) The average annual turnover of the candidate must exceed EUR 287,000; and

- b) Current ratio (current assets/current liabilities) in the last year for which accounts have been closed must be at least 1. In case of a consortium this criterion must be fulfilled by each member.
- 2) Professional capacity** (based on items 4 and 5 of the service application form. The reference period which will be taken into account will be the last **three** years preceding the submission deadline.
- a) at least two (2) staff currently work for the candidate in fields related to this contract.
- 3) Technical capacity** (based on items 5 and 6 of the service application form. The reference period which will be taken into account will be the last **three (3)** years from submission deadline.
- a) The candidate has provided services under at least **one (1)** contract with a budget of at least EUR 573,000 in the supervision of infrastructure projects, which was implemented at any moment during the reference period: 2020, 2019 and 2018.

This means that the contract the candidate refers to could have been started at any time during the indicated period but it does not necessarily have to be completed during that period, nor implemented during the entire period. Candidates are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. Only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (statement or certificate from the entity which awarded the contract, proof of payment) also detailing its value. If a candidate has implemented the project in a consortium, the percentage that the candidate has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided if the selection criteria relating to the pertinence of the experience have been used.

Previous experience which caused breach of contract and termination by a contracting authority shall not be used as reference.

Capacity-providing entities

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. If the economic operator relies on other entities it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. Furthermore, the data for this third entity for the relevant selection criterion should be included in a separate document. Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the economic operator relies, become jointly and severally liable for the performance of the contract.

If more than 8 eligible candidates meet the above selection criteria, the relative strengths and weaknesses of the applications of these candidates must be re-examined in order to rank their applications and identify the 8 best applications for the tender procedure. The only additional comparative criteria that which will be taken into consideration during this re-examination, in the order in which they appear below, are:

- the highest number of projects that meet criterion 3.a
- the highest cumulated value of the projects that meet criterion 3.a

N.B.: additional comparative criterion No 1 shall be applied to all the eligible candidates that meet the selection criteria. If, after applying additional comparative criterion No 1, it is not possible to identify the 8 best candidates because two or more candidates are tied for the 8th position, additional

comparative criterion No 2 shall be applied only to these tied candidates.
